

# Health Concerns

Parents and Guardians,

At registration each year, parents complete a Health History for each child. At this time, this information is not distributed to teachers due to HIPPA regulations. If you feel your child's teacher needs the health information to make sure your child's school year is successful, please speak to their teacher.

Please remember to keep me informed if there are changes in your child's health status through the school year. If your child has surgery, taking a new medication, diagnosed with a disease, has immunizations or other conditions that would affect their school performance. In an emergency, we need as much information as possible to relay to emergency personnel.

Certain conditions may require an IHP or Individualized Healthcare Plan for the safety and well-being of your child. If this is needed, the nurse or principal will be sure to contact you.

**PLEASE make sure emergency information is updated and current for all contact people at the school office. Cell phones seem to change often.**
